Professional Summary

Second-year Computer Science Engineering student at VIT Vellore with a strong interest in AI systems, backend engineering, and scalable application development. Experienced in building full-stack and mobile applications using FastAPI, React, Flutter, PostgreSQL, and asynchronous architectures. Passionate about intelligent workflows, backend systems, and production-grade software engineering.

Education

Vellore Institute of Technology (VIT), Vellore 2024 – 2028
B.Tech in Computer Science Engineering (Information Security) CGPA: 8.97

Internship Experience

Software Development Intern – Bharuwa Solutions, Haridwar May 2026 – June 2026

- Developed a cross-platform attendance management application using Flutter and SQLite.
- Implemented authentication, attendance tracking, calendar integration, and local database management.
- Built responsive UI components and reusable widgets while following clean architecture and Git-based development workflows.

Creative Media Intern – Arvasa Solution Pvt. Ltd. July 2025 – October 2025

- Designed promotional graphics and marketing creatives for digital platforms.
- Edited promotional videos using CapCut and enhanced audio quality using Audacity.
- Collaborated with the marketing team to create engaging multimedia content for campaigns.

Projects

AI-Orchestrator Platform FastAPI, PostgreSQL, React.js

- Built an AI orchestration platform using FastAPI, React, and PostgreSQL supporting multiple AI providers.
- Implemented JWT authentication, chat sessions, message history, analytics-ready architecture, and prompt-response caching.
- Integrated SQLAlchemy ORM, Alembic migrations, and asynchronous request handling for scalable backend development.
- Designed a modular architecture for future MCP compatibility and intelligent agent workflows.
- Implemented provider fallback and asynchronous execution across multiple LLM APIs to improve reliability and responsiveness.

Flutter Attendance Management App Flutter, Dart, SQLite

- Developed a Flutter-based attendance management application with SQLite for offline data persistence.
- Implemented attendance tracking, punch in/out functionality, calendar visualization, and responsive UI components.

Hospital CRP (Patient Portal System) React.js, Tailwind CSS

- Developed a responsive Clinical Resource Portal enabling patients to access reports, appointments, and medical records.

Technical Skills

Languages: Python, C, C++, Java, JavaScript, Dart, SQL

Backend: FastAPI, JWT Authentication, Async Programming

Frontend & Mobile: React.js, Flutter, Tailwind CSS, HTML5, CSS3

Databases: PostgreSQL, SQLite, SQLAlchemy ORM, Alembic

Tools & Platforms: Git, GitHub, Android Studio, VS Code, Render, Vercel

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming
